

Q1 2026 | FACTSHEET

# Inspire Select Precision Models

## About Inspire Select Precision Models

At Inspire Investing, we champion the principles of Biblically Responsible Investing (BRI). Our strategies are designed to align with biblical values, empowering investors to make a positive impact on the world while maximizing return potential.

Central to our approach is the revolutionary Inspire Impact Score methodology. This objective, rules-based system evaluates companies based on their adherence to biblical values and their overall positive impact on customers, communities, employees, and the world. Companies receive scores ranging from -100 to +100, with +100 representing the highest possible alignment with our criteria.

Only companies with neutral or better Inspire Impact Scores are included in our portfolios.

### Inspire Select Asset Class Models

*Inspire Select Emerging Markets, Inspire Select International, Inspire Select US Large Cap, Inspire Select US Mid Cap, Inspire Select US Small Cap*

These Asset Class Models, each made up of 40 individual stocks of a common asset class, are designed to increase a portfolio's exposure to emerging markets, international developed, US large cap, US mid cap, and US small cap companies respectively rather than act as standalone models. These companies are ranked and selected based on multi-factor quantitative and qualitative analysis relative to other companies of the same asset class.

### Inspire Select Fixed Income

This is a diversified fixed income model composed of corporate bond, mortgaged-backed security, and US Treasury ETFs. This model is intended to increase the fixed income exposure of a portfolio rather than act as a standalone model.

### Inspire Select Thematic Models

*Inspire Select Clean Water, Inspire Select Cure Cancer, Inspire Select Large Growth, Inspire Select Communications, Inspire Select Consumer Discretionary, Inspire Select Consumer Staples, Inspire Select Energy, Inspire Select Financials, Inspire Select Healthcare, Inspire Select Industrials, Inspire Select Large Growth, Inspire Select Large Value, Inspire Select Materials, Inspire Select Real Estate, Inspire Select Technology, Inspire Select Utilities*

Inspire Select Clean Water and Inspire Select Cure Cancer models are composed of 25 individual stocks each and support the thematic goals of owning biblically responsible companies that contribute to the advancement of clean water initiatives and cancer research/innovation. Inspire Select Large Growth is composed of 25 individual large cap stocks with strong long-term growth characteristics, and Inspire Select Large Value is composed of 25 individual large cap stocks with strong long-term value characteristics. The remaining thematic models are each composed of an actively managed portfolio of 10 individual stocks from a common industry sector - communications, consumer discretionary, consumer staples, energy, financials, healthcare, industrials, materials, real estate, technology, and utilities - providing additional exposure to specific sectors rather than acting as standalone models. These companies are ranked and selected based on multi-factor quantitative and qualitative analysis relative to other companies of the same sector.

Source: Inspire Investing as of March 31, 2026

\*Please note, actual fees associated with this strategy may be lower.

\*\*Inception dates: January 1, 2016, for Inspire Select Consumer Discretionary, Inspire Select Energy, Inspire Select Financials, Inspire Select Healthcare, Inspire Select Industrials, Inspire Select Materials, Inspire Select Real Estate, Inspire Select Technology, Inspire Select Utilities, Inspire Select US Large Cap, Inspire Select US Mid Cap, Inspire Select US Small Cap, Inspire Select International, Inspire Select Emerging Markets, Inspire Select Clean Water, S&P 500 Index (TR) and S&P 500 Equal Weighted Index (TR); January 1, 2017, for Inspire Select Cure Cancer; July 1, 2019, for Inspire Select Fixed Income; April 1, 2022, for Inspire Select Communications and Inspire Select Consumer Staples; January 1, 2026 for Inspire Select Large Growth and Inspire Select Large Value.

Performance returns for periods of less than one year are not annualized. All periods longer than one year are annualized.

Important Performance Reporting Information: Past net performance is no guarantee of future results. Investors cannot invest directly in an index and unmanaged index returns do not reflect any fees, expenses or sales charges.

Cumulative performance is the total holding period rate of return of an investment from the start date to the current report date. Annualized performance is the return an investment provides over a period of time, expressed as a time-weighted annual percentage for periods shorter and longer than 1 year. The U.S. Dollar is the currency used to express performance. Model and benchmark/index performance results reflect realized and unrealized appreciation and the reinvestment of dividends, interest, and/or capital gains. Taxes have not been deducted. Gross model returns do not reflect actual performance because they do not reflect the deduction of any fees or expenses. Such fees that a client may incur in the management of their investment advisory account may reduce the client's return. The "net of fees" performance figures reflects the deduction of an investment advisory fee but do not reflect the deduction of custodial fees, platform fees or brokerage commissions. Net composite returns reflect the deduction of an annual fee of 3% typically deducted monthly or quarterly. Due to the compounding effect of these fees, annual net composite returns may be lower than stated gross returns less stated annual fee. Index returns do not reflect transaction costs, or the deduction of fees and it is not possible to invest directly in an index. You should consult with your advisor to learn more about the fees that will be applied to a particular account or type of account. The performance of accounts managed by a third party advisor and other third parties; the advisor's decision to exercise its discretion to implement a given strategy in a way that differs from the information provided by Inspire; the timing of the advisor's implementation of strategy updates; investor imposed investment restrictions; and the timing and nature of investor initiated cash flow activity in the account may cause actual performance to differ substantially from reported performance. There is no guarantee that any of the investment strategies will be successful, and investors should be aware that returns reflect capital gains and losses, income, and the reinvestment of dividends.

Inspire Investing, LLC, is a Registered Investment Adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. National Admin Office: 3597 E Monarch Sky Ln, Ste. 330 Meridian, ID 83646; (877) 658-9473; inspire@inspireinvesting.com.

Important Performance Reporting Information: Past net performance is no guarantee of future results. Investors cannot invest directly in an index and unmanaged index returns do not reflect any fees, expenses or sales charges. Cumulative performance is the total holding period rate of return of an investment from the start date to the current report date. Annualized performance is the return an investment provides over a period of time, expressed as a time-weighted annual percentage for periods shorter and longer than 1 year. The U.S. Dollar is the currency used to express performance. Model and benchmark/index performance results reflect realized and unrealized appreciation and the reinvestment of dividends, interest, and/or capital gains. Taxes have not been deducted. Gross composite returns do not reflect actual performance because they do not reflect the deduction of any fees or expenses. Such fees that a client may incur in the management of their investment advisory account may reduce the client's return. The "net of fees" performance figures reflects the deduction of an investment advisory fee but do not reflect the deduction of custodial fees, platform fees or brokerage commissions. All periods longer than one year are annualized. Net composite returns reflect the deduction of an annual fee of 3% typically deducted monthly or quarterly. Due to the compounding effect of these fees, annual net composite returns may be lower than stated gross returns less stated annual fee. Index returns do not reflect transaction costs, or the deduction of fees and it is not possible to invest directly in an index. You should consult with your advisor to learn more about the fees that will be applied to a particular account or type of account. The performance of accounts managed by a third party advisor and other third parties; the advisor's decision to exercise its discretion to implement a given strategy in a way that differs from the information provided by Inspire; the timing of the advisor's implementation of strategy updates; investor imposed investment restrictions; and the timing and nature of investor initiated cash flow activity in the account may cause actual performance to differ substantially from reported performance. There is no guarantee that any of the investment strategies will be successful, and investors should be aware that returns reflect capital gains and losses, income, and the reinvestment of dividends.

**Important Risk Information**

This material includes forward-looking statements, long-term capital market assumptions, and hypothetical allocations. These projections are not guarantees of future results and are based on a number of estimates and assumptions that are inherently uncertain and subject to change. Actual performance may differ materially from these assumptions.

Any expected returns, forecasts, or projections included herein are purely illustrative and do not represent performance of any specific investment product. These assumptions do not reflect actual trading and are not intended to predict the performance of any specific account or strategy.

Inspire Investing and its affiliates have not taken into consideration the circumstances of any particular investor in producing this material and are not making an investment recommendation or acting in a fiduciary capacity in connection with the information provided herein. Past performance is no guarantee of future results. It is not possible to invest directly in an index. Index performance does not reflect charges and expenses associated with the fund or brokerage commissions related to buying and selling a fund.

Index performance is not intended to represent that of any particular

All information is from Inspire unless otherwise noted and has been obtained from sources believed to be reliable, but its accuracy is not guaranteed. There is no representation or warranty as to the current accuracy, reliability or completeness of, nor liability for, decisions based on such information and it should not be relied on as such.

FOR PROFESSIONAL USE ONLY

BEFORE INVESTING, CONSIDER THE FUNDS' INVESTMENT OBJECTIVES, RISKS, CHARGES AND EXPENSES. TO OBTAIN A PROSPECTUS WHICH CONTAINS THIS AND OTHER INFORMATION, CALL 877.658.9473, OR VISIT WWW.INSPIREETF.COM. READ IT CAREFULLY.

Inspire ETFs are distributed by Foreside Financial Services LLC, Member FINRA. Investment advisory services offered through Inspire Investing, LLC, a Registered Investment Advisor with the SEC. Inspire and Foreside Financial Services LLC are not affiliated.

Investing involves risk including the risk of loss of principal. Although steps can be taken to help reduce risk it cannot be completely removed.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs' net asset value. Brokerage commissions and ETF expenses will reduce returns.

**Asset allocation** is a method of diversification which positions assets among major investment categories. While asset allocation may help reduce the investment risk, it does not ensure a profit or guarantee against a loss.

**Diversification** does not ensure a profit or guarantee against loss.

**Actively managed model portfolios** do not seek to replicate the performance of a specified index. An actively managed model portfolio may underperform its benchmark. An investment in the model portfolio is not appropriate for all investors and is not intended to be a complete investment program. Investing in the model portfolio involves risks, including the risk that investors may receive little or no return on the investment or that investors may lose part or even all of the investment.

Carefully consider the funds within the model portfolios' investment objectives, risk factors, and charges and expenses before investing. This and other information can be found in the funds' prospectuses, and if available, the summary prospectuses which may be obtained by visiting respective fund family websites. Read the prospectus carefully before investing.

**Foreign (non-US) securities** may be subject to greater political, economic, environmental, credit and information risks. Foreign securities may be subject to higher volatility than US securities, due to varying degrees of regulation and limited liquidity. These risks are magnified in emerging markets.

**Bonds** generally present less short-term risk and volatility than stocks, but contain interest-rate risk (as interest rates rise, bond prices usually fall); issuer default risk; issuer credit risk; liquidity risk; and inflation risk. These effects are usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss.

The information provided does not constitute investment advice and it should not be relied on as such. It should not be considered a solicitation to buy or an offer to sell a security. It does not take into account any investor's particular investment objectives, strategies, tax status or investment horizon. You should consult your tax and financial advisor.
